

MINI STACKED STORAGE SYSTEM

JULIEN DE SMEDT ARCHITECTS ON THE DESIGN “How to be specific and generic altogether? Shelving systems have a tendency to achieve one concern but never both. We decided to dimension shelving units based on the generic measurements of things to store and display while allowing for them to be combined according to specific needs and desires. The result can be at times a random stack of boxes or a coordinated grid of efficient storage... or both!”

ABOUT THE DESIGNER

Copenhagen-based Julien De Smedt is the co-founder of PLOT and an internationally acclaimed architect. He is recognized for his ability to always take a fresh look at things. His works challenge conventions and many have been awarded.

CATEGORY

Wall-mountable shelf system

ENVIRONMENT

Indoor / Free standing or wall mounted

COUNTRY OF PRODUCTION

Slovenia

PREASSEMBLED

Yes

DESCRIPTION

Mini Stacked is a small and versatile addition to the Stacked Storage System. The cubes hang neatly on the wall individually or together, creating graphic and functional storage. All modules with backboards. Medium Oak version also available with Light Grey or Dusty Green backboard.

PRODUCTION PROCESS

Colored versions: Every side is cut out of MDF, then assembled, glued together and painted
Oak versions: Every side is cut out of MDF with ash veneer, then assembled and glued together.

MATERIAL

Mini Stacked modules: PU lacquered MDF or oak veneer.

Mini Stacked clips: Painted steel

CLEANING AND CARE

Remove dust from shelves with a soft cloth. When necessary clean with moist cloth. For wood veneer finishes, dry immediately with a soft cloth following the wood grains. The wood should not be exposed to excessive heat, direct sunlight or humidity.

SPARE PARTS

Each Mini Stacked module comes with one color matching clips, while Oak comes with light grey clips. Extra clips available as Set of 5 in the colors White, Light Grey, Grey, Dusty Green and Midnight Blue.
