Year of design **2017**

Year of production **2017**

Metallic cloth hanger with the shape of a parallelepiped with open lines and precise geometry fragmented by an irregular hanging branch. A full base sharply defines the space but doesn't weigh down the color that may be solid or combined in alternation with black, white, pale shades of blue, pink and ecru.

Nendo

2013

Under the direction of architect Oki Sato, the group that gathers under the name Nendo has represented a cultured and refined alternative to self-celebrative design since 2002. "Nendo" means "clay" in Japanese; the job of the Nendo group in the field of interior architecture, furniture and graphics is to be as pliable and flexible as clay. In a just few short years and running on big personality and unmatched determination in the field of modern design, Nendo has already received several international credits.
