
Ray Outdoor Natural

ARMCHAIRS

Antonio Citterio

Description

After their success indoors, the Ray seats by Antonio Citterio now include two new outdoor versions, namely the "Natural" and "Fabric" collections of seats. Ray Outdoor Natural features an interlacing rope pattern reminiscent of Manila hemp, in perfect harmony with nature, and is created with textilene, making it perfect for outdoor use. Ray Outdoor Natural is available with an extruded aluminium feet or teakwood base. The "Natural" and "Fabric" collections consist of sofas available in two depths as well as modular elements such as terminal elements, chaise longue and armchair.

Technical information
