

GILD 02 – RED

Inspired by the Swedish Grace period, the early 20th-century design movement deeply rooted in neoclassicism, the Gild collection encapsulates a world of sophisticated, modern elegance. Echoing the principles of this classical style with designs and patterns reimagined for the modern day. Gild 02 makes a statement with its deep red hue and repeated brick-like pattern. The geometric motifs reflect the movement's fondness for architectural forms and rhythmic repetition. Golden bamboo silk is used throughout which softly shimmers with the interplay of light. The Gild collection is handmade in small batches. Only a few in each size are available.
