

Tombolo

design Piero Lissoni con Studio UN Pizzo

Armchair available for **indoor** and **outdoor**.

Indoor version: tubular steel frame with chromed finish, in AISI 316 stainless steel with matt-satin finish or with epoxy powder coating gunmetal color. Seat chassis in self-supporting decorative HPL plastic laminate panel.

Seat cushion in polyurethane foam, covered with acrylic fibre layers. Backrest cushion in polyurethane foam covered with acrylic fiber layers.

Fabric or leather upholstery, both fully removable by zippers.

Outdoor version: tubular steel frame with chromed finish or with a galvanizing base for outdoor with epoxy polyester powder coating gunmetal color. Seat chassis in self-supporting decorative HPL plastic laminate panel.

Seat and backrest cushions in open cell polyurethane foam and covered with acrylic fiber for outdoor.

Upholstery with outdoor fabrics only, fully removable by zippers.

Woven with a hypoallergenic, recyclable, eco-friendly tubular, suitable both for indoor and outdoor, in colors in collection.

Inspired by the ancient crochet technique of Cantù, this lace recaptures the traditional stitching called half stitch and linen stitch with joined twists, renewed in a contemporary manner to create new patterns and designs through an extra-large bobbin and decidedly thicker threads.
